Monthly List
of
Russian Accessions

Vol. [illegible], No. 4 April 1954

THE LIBRARY OF CONGRESS
WASHINGTON : 1954

INTRODUCTORY NOTE

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of the publications in the Russian language received in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included. It consists of four parts.

Part A lists monographic literature, but no accessions published earlier than 1945 are included. To facilitate the use of this LIST by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets. Since this procedure changes the alphabetic arrangement of title entries, cross references are given from the English titles to their English translations.

Part B lists the contents of Russian periodicals, but no accessions printed earlier than 1947 are included. The table of contents of each periodical in the original language is preceded by its English translation.

Part C is a subject guide to both the monographic and periodical articles listed in Parts A and B. Monographic titles are listed under the appropriate subject headings first, followed by the periodical articles. For the convenience of readers desiring to examine only monographic or periodical articles, the monographic titles are printed on lightly heavier type than the periodical articles. The titles of monographic titles are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles the following abbreviations are used for the months of the year:

Ja	January	My	May	S	September
F	February	Je	June	O	October
Mr	March	Jl	July	N	November
Ap	April	Ag	August	D	December

Sample title: Electrification of the Ivanovo industrial area. L.S.Levina, G.M.Neshtadt. Vestnik, 30 no. 9 (S '55) 0 p. illus.

Explanation: An article with title given above in English translation, written by L. S. Levina and G. M. Neshtadt, will be found in the September-October 1955 issue of *Vestnik of* [illegible], vol. 30, no. 9, pages [illegible].

A cumulative list of the periodicals included in all the issues of Volumes 6 and 7 to date, with the abbreviations used for individual periodicals, is given at the beginning of Part C in each issue of the LIST. The number and letter in parentheses following each periodical title indicate the city and oblast in which it is to be found in Part B. Symbols of American research libraries other than the Library of Congress known to have current files of each periodical follow each periodical title in the cumulative list.

Part D is a list of monographs known to have been published recently in the USSR but not located in the Slavic Union Catalog. Translations in English of the titles are included, but since the principal purpose of this part is to give as much information as possible about the original title, the translation follows rather than precedes the original title.

Except in Part B, the material is divided into 17 subject classes and is arranged alphabetically within each class. In addition, for the convenience of the reader, the serials listed in Part B are divided within each subject class into several subclasses. All entries are transliterated according to the system used by the Library of Congress, with certain exceptions that have become outmoded. Unless otherwise indicated, all titles listed are to be found in the collections of the Library of Congress. Symbols* represent additional libraries reporting the availability of the items in those libraries. Curves ( ) around symbols indicate that at the time of receipt the material was available in another library but not in the Library of Congress.

A cumulative author, subject, and periodical location index to the [illegible] MONTHLY LIST is available as a separate publication, and a similar publication. Beginning with Volume 8 of the MONTHLY LIST, an [illegible] and a cumulative location index for the entire volume are published in the issue of the following volume.

Orders for microfilm or photostat copies of the listed items in the Library of Congress may be placed with the Photoduplication Service, LC.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is [illegible] by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, $20.00 a year. Price of annual cumulative Index to Volume 7, $1.50.

INDEX TO PERIODICALS LISTED IN *MONTHLY LIST OF RUSSIAN ACCESSIONS*
VOLUME 6, APRIL 1953–MARCH 1954

All periodicals are listed in the form established by the Library of Congress. It should be noted that this is an index to the *Monthly List* and does not necessarily represent holdings of the Library of Congress, since some periodicals listed have been reported by other libraries but not received by the Library of Congress. On the other hand, issues not listed in Volume 6 may have been received by the Library of Congress at a later date. Each periodical is in number is followed in parentheses by the page of the *Monthly List* on which it was listed. The letters "a," "b," "c" after the page number indicate the left hand, center, and right hand columns of the page respectively. Unnumbered series are indicated in the same manner, except that the pages of the *Monthly List* on which they appear are not given in parentheses.

Monthly List
of
Russian Accessions

Vol. 7, No. 2

THE LIBRARY OF CONGRESS
WASHINGTON : 1954

INTRODUCTORY NOTE

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included. It consists of four parts.

Part A lists monographic literature, but no accessions published earlier than 1945 are included. To facilitate the use of this LIST by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets. Since this procedure changes the alphabetic arrangement of title entries, cross references are given from these titles to their English translations.

Part B lists the contents of Russian periodicals, but no accessions printed earlier than 1947 are included. The table of contents of each periodical in the original language is preceded by its English translation.

Part C is a subject guide to both the monographs and periodical articles listed in Parts A and B. Monographs are listed under the appropriate subject headings first, followed by the periodical articles. For the convenience of readers desiring to examine only monographs or periodical articles, the monographs are printed in slightly heavier type than the periodical articles. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles the following abbreviations are used for the months of the year:

Ja	January	My	May	S	September
F	February	Je	June	O	October
Mr	March	Jl	July	N	November
Ap	April	Ag	August	D	December

Sample title: Electric action of the brain in glaucoma. L.S.Levina, G.M.Neishtadt. Vestnik, 30 no.5: 9-12 S-O '51

Explanation: An article with title given above in English translation, written by L. S. Levina and G. M. Neishtadt, will be found in the September-October 1951 issue of *Vestnik oftalmologii*, vol. 30, no. 5, pages 9-12.

A cumulative list of the periodicals included in all the issues of Volumes 6 and 7 to date, with the abbreviations used for individual periodicals, is given at the beginning of Part C in each issue of the LIST. The number and letter in parentheses following each periodical title indicate the class and subclass in which it is to be found in Part B. Symbols of American research libraries other than the Library of Congress known to have current files of such periodicals follow each periodical title in the cumulative list.

Part D is a list of monographs known to have been published recently in the USSR but not located in the Slavic Union Catalog. Translations in English of the titles are included, but since the principal purpose of this part is to serve as a want list, the translation follows rather than precedes the original title.

Except in Part C, the material is divided into 17 subject classes and is arranged alphabetically within each class. In addition, for the convenience of the reader, the serials listed in Part B are divided within each subject class into several subclasses. All entries are transliterated according to the usual Library of Congress system except that ligatures are omitted. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Symbols * representing other libraries indicate when items are available in those libraries. Curves ( ) around a symbol indicate that at the time of receipt the material was available in another library but not in the Library of Congress.

A cumulative author, subject, and periodical location index to the first three volumes of the MONTHLY LIST is available as a separate publication, and a similar index to Volume 4 is in preparation. Beginning with Volume 5 of the MONTHLY LIST, an author index to the monographs, and a periodical location index for the entire volume are furnished as appendices to the first two issues of the following volume.

Orders for microfilm or photostat copies of the listed items that are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, $9.00 a year domestic, $11.00 a year foreign. Price of Cumulative Index to Volumes 1-3, $1.50.
